

690 CA1

Access 1 coaxial kit

Painted chassis, 20% glass fiber filled ABS material
Strong rigid chassis, non-magnetic, non-resonant

Butyl surround
Resilient material, promoting long life

Aluminum inverted dome, adjustable tweeter
Accuracy, sound staging optimization

All weather woven glass fiber cone
Dynamic bass and precise midrange, humidity-resistant cone

90mm (3-1/2") magnet
High sensitivity

Built-in crossover (4.7kHz)
Easy and quick installation

Voice coil cooling system
Reliability, performance consistency

30mm (1-3/16") voice coil
High power handling

20mm (13/16") ferrofluid voice coil
Excellent power handling

164x235mm (6x9") woofer
30mm (1-3/16") voice coil
90mm (3-1/2") magnet
Aluminum inverted dome tweeter
6dB/octave built-in crossover
Max. power: 150W - Nom. power: 75W
Sensitivity (2.8V/1m): 91dB
Frequency response: 50Hz - 20kHz
Accessories: grilles supplied

It makes the difference :

- Direct wiring to a High Power car radio
- High power handling
- Extremely dynamic sound
- Punchy bass on the whole vehicle
- The Focal Sound
