

# SUB<sup>energy</sup> BOX

## EBX 250 700 Watt

### Technical Specifications

<b>Component</b>	Bass Reflex Sub Box	
<b>Speaker Size</b>	mm	250 (10")
<b>Power Handling</b>	W peak	700
	W continuous	350
<b>Impedance</b>	$\Omega$	4
<b>Frequency response</b>	Hz	28 ÷ 300
<b>Sensitivity</b>	dB/SPL	93
	B	465
	L	365
<b>Box Size</b>	H	338
	mm	
<b>Weight of one component</b>	Kg	15,1
<b>Magnet</b>	Single magnet, High density flux ferrite	
<b>Cone</b>	Water-repellent pressed paper	

Xponential-Flanged-Duct®

- 1 20 mm MDF employed to minimize enclosure losses.
- 2 Slanted rear panel helps reduce back wave reflections and eases installation.
- 3 Xponential Flanged Duct® for powerful, undistorted output; perfect for the long excursion subwoofer used.
- 4 Molded composite grille offers total speaker protection and great cosmetic appeal.
- 5 Proprietary connection terminals provide the outmost in functionality and safety.
- 6 Ergonomic anti-slip rubber handles aid in the removal of the enclosure.
